

## A Day in the Life of an Intern

**Name:** Angel M.

**Role:** Marketing/Development Intern

**Nexus Family Healing Agency:**  
Nexus-PATH

**Educational Program:** Bachelors of Arts in Public Relations/Marketing with Strategic Communications emphasis

**Responsibilities:**

- Create content for marketing purposes
- Provide research and ideas for marketing/development strategies
- Manage and maintain social media channels

**What You Learned:** The opportunity of interning for the Marketing and Development Department has helped me gain skills in how to make an impact in children’s and families' lives. I learned how important it is to maintain and create relationships with our donors, community, and sharing youth impact stories. This is an important piece for me because it has helped me better understand Nexus-PATH’s goal and how I can help them reach it.

**Future Goals:** As I continue my internship, I hope to keep learning from my mentors in the organization, how to create a strong relationship within the community, and to be a leader. After my internship I want to work within the nonprofit world utilizing the skills, knowledge, and experience I’ve gained to continue the impact on youth the way I have seen Nexus-PATH gracefully do.

“Children hold our future in their hands and I believe that we have the chance to help them create a better future for themselves and the world. With this opportunity, I was able to spread hope and awareness in our community about our services and resources. I think knowing what your community provides can go a long way with helping children and families in need succeed.”
