A Day in the Life of an Intern

What You Learned: What I have really learned from being both employed at Nexus-Indian Oaks as well as interning here is how to appropriately advocate for myself and my own personal needs. This is something that some steer away from but completing these tasks here have really helped me see my worth in the work that I do. Something else that I have learned from my time here is my desired population to work with - the youth here at Indian Oaks Academy and all the struggles that they may bring.

Current role and Future Goals: My current role at Nexus-Indian Oaks is an interim Clinical Case Manager and upon the completion of my degree in December 2021, the interim part will be no longer, and the position will be mine. The goals that I have for the future is to continue my education and to further understand the work that is needed to meet the needs of the youth that we serve.

“There are so many positions to explore that can fit anyone’s needs/desires within a company - it is worth the journey.”
