

# Meet Daniel

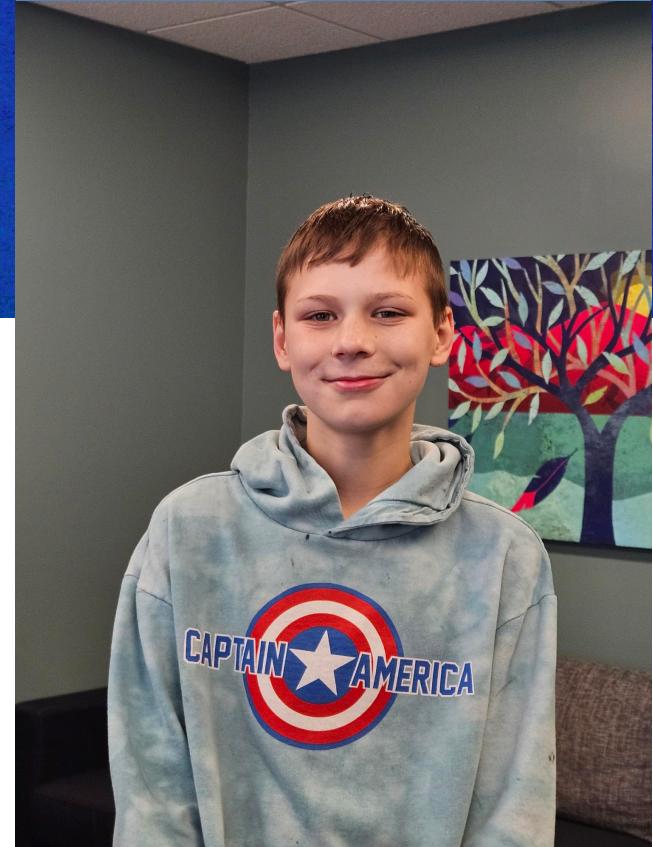

Daniel (12) is a funny, creative, and friendly pre-teen that loves dogs who is looking for his forever family. He enjoys one-on-one attention from adults and generally gets along well with peers his age. Daniel loves making others laugh and thrives in an environment where friendly banter is welcome.

Daniel enjoys basketball and football, and his favorite teams are the Vikings, Eagles, and Timberwolves. He would like to try to play football and basketball. He does especially well with hands-on activities and likes playing video games, chess, Legos, card games, and using fidgets.

Daniel is open to most family settings. He would do best in a two-parent home. He will also do well in a family with other children and animals. He hopes for a family that enjoys playing and watching sports together. It is important that his future family is trauma-informed and committed to maintaining therapeutic services. Daniel would thrive with parents who have a relaxed and patient personality while also providing consistent structure in his daily routine.
