

Meet Lacey

Lacey (16) is a smart and personable teen that is looking for a forever family that would be able to support her in navigating life, and growing life skills. Lacey loves doing her makeup and hair and staying up to date with trends. While relaxing she enjoys watching horror movies and snacking.

The best family composition for Lacey would be a two parent home, that are trauma informed and have good boundaries. A family that is not directly in a big city would be the best fit for her. Lacey would prefer a family with no other children if possible.
