

Lucas

Age 12

Lucas is a kind, smart, and responsible youth who enjoys learning and creating through hands-on activities. He is a talented artist with a special interest in drawing, and he would like to learn beadwork. Other interests and hobbies include listening to (mostly country!) music, playing video games, going fishing, collecting gaming cards, and cooking. Some of his favorite foods are burritos, eggs, and pizza. Lucas enjoys attending summer camp each year.

Lucas is a good student and has a positive attitude toward school — his favorite classes are STEM and science. As part of a school project, Lucas enjoyed the opportunity to care for baby chicks! He enjoys being around animals and hopes to share a home with pets.

Lucas enjoys and finds meaning in learning about and participating in his culture. He has siblings who are important to him.

Families enrolled in or affiliated with a federally recognized tribe are encouraged to inquire. Families with strong commitment to supporting continued cultural connections are also encouraged to inquire.
