

Ronald

Age 15

Ronald is a 15-year-old boy who describes himself as "a good person." Ronald is an inquisitive and joyful young man. He asks great questions and enjoys engaging in fun activities to connect with others. A great afternoon for Ronald would include relaxing after school, listening to his favorite music and eating a Big Mac. Some favorite artists are Michael Jackson, Prince, and Queen. Ronald also enjoys rap music and says his rap name would be DJ Ronald!

Some of Ronald's other interests are playing basketball, fishing, video games, assembling LEGO sets, recording videos, getting snacks from the convenience store, being around animals, and being outside. He loves going to camp each summer and the activities he gets to do there, including ziplining!

Ronald wants a permanent family and remains hopeful to be adopted. A strong family for Ronald will understand his abilities, advocate for and pursue services, and be supportive and inclusive of him throughout his life stages.

If living outside of the home, an ideal family would include him in experiences such as celebrations, holidays, vacations, and extended visits in the home while providing emotional support and consistent communication when apart. If living with a family, they'd need to understand Ronald's day-to-day needs and be prepared to utilize ongoing support services.
