

# Meet Amber

Amber (13 years old) enjoys music, art, drawing, crafts, basketball, skate boarding, being outside, reading, and mushroom hunting. She also does very well in school. Amber is described as being an introvert who is generally quiet and reserved.

Amber would thrive in a home where she is afforded structure, love, and one-to-one attention. She would also benefit from having older siblings who can be positive role models for her.

Amber would do well in a home that has significant knowledge of childhood/adolescent trauma. Amber has experienced a significant level of instability in her life. Amber needs a home where she is the primary focus of the care givers.
