

Meet Levi

Levi (10) has a bright smile and is charming. Levi is very active and likes to mimic sounds all day. Levi enjoys many things, but can often get fixated on specific things very easily.

He has a great imagination and is very creative in his play. He seems to remain fixated on garbage trucks or trucks that are big and make a lot of noise. He also like making paper airplanes, getting the mail, and is interested in bells, lift gates, and power lines. Levi will pull all the shoe laces out of shoes in the house to make “power lines.”

Levi would do best in a structured home that is familiar with waived services and advocating in school settings.
