

Meet Chays

Chays (age 12) is a quirky, endearing child who excels in math and loves to read. He can be somewhat quiet at first, but opens up when he gets to know you, and is then chatty and friendly.

In his free time, Chays likes to play football and video games, ride his bike, and read books (especially about animals). His favorite foods include salad, spaghetti, lasagna, pizza, and McDonald's. Chays enjoys animals and would be happy to have a pet. He would do best in a two-parent home that does not have a lot of other children.

Following adoption, Chays would need to keep in contact with his sisters.
