

Meet Myra

Myra is an endearing 14-year-old with a gentle sense of humor, a kind heart, and a warm personality. She enjoys staying active, spending time outdoors, and helping in the garden. Myra loves to read and can get lost in a good book. She recently discovered the horror genre and enjoys the suspense and excitement of spooky stories.

Creative and artistic, Myra enjoys drawing and is always eager to learn new skills. She has taught herself something new nearly every week, from juggling to doing front flips on the trampoline. She even taught herself how to skateboard! Looking ahead, she is excited about the possibility of playing soccer, where she can develop her talents and be part of a team. Myra is a wonderful mix of creativity, curiosity, determination, and adventure.

Myra hopes for a home where she feels loved, accepted, and included. She would enjoy having siblings and would be excited to be part of a family with pets, especially dogs. She is open-minded and has no preference regarding whether her family has one parent or two, whether her parent(s) are male or female, or their race or cultural background.

More than anything, Myra is looking for caring adults who will provide support, encouragement, and a sense of belonging as she grows and discovers her place in the world.
